Do's and Don't's

Background

Changes to Adult Social
Care within The Care Act
(2014)

The Care Act (2014)

What is it?

The Care Act sets out Local Authorities' duties to assess people's needs and eligibility for publicly funded care and support

How does it differ from earlier legislation?

The Care Act (2014) helps improve people's independence and explicitly centralises the wellbeing of service users throughout decision making

Care Act 2014

2014 CHAPTER 23

Choice and Control

Wellbeing as defined by The Care Act includes:

"control by the individual over day-to-day life (including over care and support, or support, provided to the individual and the way in which it is provided)"

(section 1(2)d)

The FPS is built to centralise this choice and control at heart of decision making when comes to provision of services

FPS Overview

What is the FPS?

- The FPS creates a single flexible procurement framework which operates as a common, shared 'marketplace' for social care
- It enables engagement with care providers **without** lengthy and expensive procurement processes
- There is:
 - A single 'entry point' for the 6 Councils and the Clinical Commissioning Group partners to commission services
 - A single route for Providers to register to supply services across Liverpool City Region

FPS Overview

Process Overview:

1. Initial compliance check to ensure all applications also include CQC certificate (if applicable) evidence of insurance and financials (as per checklist in the 'Read me First' guidance)
2. Applications with the above will then progress to the evaluation stage
3. Summary of successful/ unsuccessful drafted and successful organisation accounts are shared with the LCC Finance team who undertake a financial viability assessment
4. Award report drafted for approval by LCR project board
5. Outcome notifications issued via the ProContract portal

Timescales

This FPS will remain open during the maximum 10-year period until 18/02/2030; this means that, following the initial assessment and establishment of the FPS, new Providers can apply to be added to the FPS at any point in time.

Although Providers may apply at any time, the Applications they submit will only be assessed and added to the FPS at 2 periods during each calendar year.

What are the benefits?

For Providers

- ✓ Single market-place across LCR enabling visibility of commissioning activity
- ✓ Streamlined evaluation with possibility of direct award
- ✓ Improve access for smaller, local providers

For Commissioners

- ✓ Single market-place across LCR enabling easier access to care providers to meet service user needs
- ✓ Intelligence gathering to inform market development activity
- ✓ Alignment and rationalisation of service specifications

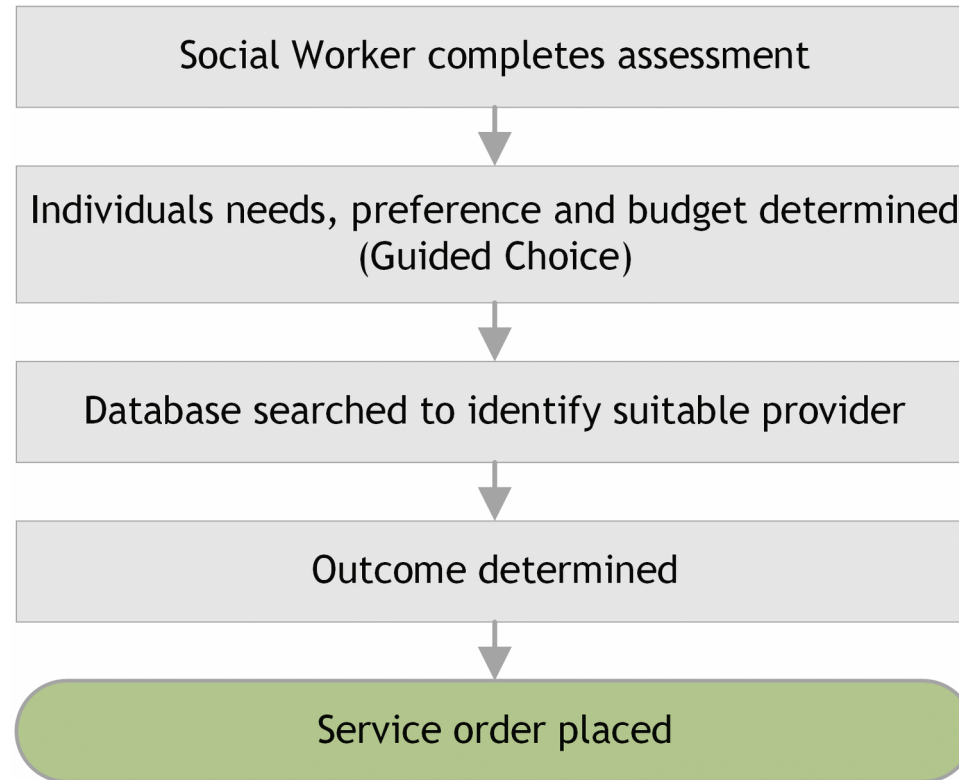

Service Streams

The FPS is separated into **6** different service streams that are organised by the **type of care service** offered by providers

Ai	CQC Registered Community Based Services which offer personal care and support either with or without accommodation for those with eligible needs under the Care Act
Aii	Non-Registered Community Based Services which offer care and support either with or without accommodation for those with eligible needs under the Care Act
B	Registered Residential and Nursing Care Services for those with eligible needs under the Care Act
C	Positive Behaviour Support (PBS) for those with eligible needs under the Care Act
D	Connecting with Others / Learning New Skills as wider prevention service or for those with eligible needs under the Care Act
E	Independent Support Planning/ Brokerage Services for those with eligible needs under the Care Act

Direct Award Contracts
